Incentives	\$ 1,000
Professional Development	\$

Character Building Program                      \$ ?

Remaining amount: \$5,958

-Danielle Holyoak proposes the idea of a "Constitution Bee". She wondered if the City Council would take part in this. If we could do it around Veteran's Day. She wondered about asking questions about the constitution. It could be for students to do on their on.

-Heidi Quintana proposed finding a way to better involve Hispanic parents on take home projects. Mr. Jones questioned how to better help those parents who may not have an understanding of our programs as well as the possibility of purchasing a new sound system for our gym.

-Discussion of library programs (STEM programs-Makerspace) that is currently being implemented once per month.

Lacey proposed the idea of hiring someone to educate students for a half hour while educators have preparation.

Danielle stated she would look into more details surrounding the constitution bee and JR stated he would look into other character Ed programs that may not be as expensive as well as research speaker systems for programs and assemblies due to the fact our current system is inadequate.

Adjourned -2:37 (Motioned By JR, Seconded by Annie)
